Keeping Great Ideas  
Within Reach

# Keeping Great Ideas Within Reach

Dear Safco Customer:

What do people want most in their working environment?

At Safco, we believe that comfort is the main ingredient to providing a happy and productive work experience. Comfort can mean different things to different people. It can mean the individualized comfort that comes from a well-designed, finely crafted chair. It can be the satisfaction you feel from having the perfect storage unit to help you stay organized. Or it can simply be the sense of well being you get from using the correct ergonomic wrist support system designed to keep you comfortable and safe all day...every day.

Safco was founded over 35 years ago with a small offering of corrugated storage products designed for use in offices. Every year since then, we have added quality, innovative products to our line and backed it all with the best service in the industry. Today, we are proud to offer over 2000 innovative products that have been designed to meet specific needs in all corners of the workplace.

In the Art & Engineering field, we realized early that engineers, architects, artists, surveyors and designers have their own needs in graphic storage. It can be a need for organization at individual workstations, original material supply filing or large archival storage. Safco meets all of these needs by offering a complete line of document storage products and furniture specifically designed for the art and engineering professional. As you look through this catalog, you will find a wide array of flat file, vertical file and roll file options as well as drafting chairs and tables...everything you need to keep your great ideas within reach.

Art & Engineering is one of five Safco catalogs being offered this year. We invite you to request a copy of our Seating Solutions, Workplace Organization, Personal Comfort and Facility Essentials catalogs. As you browse through these books, I'm sure you'll see how we've dedicated ourselves to "Creating Your Comfort Zone" throughout the workplace.

Sincerely,

Dan Zdon  
General Manager

# Steel Flat Files

Two 5-Drawer Flat Files with optional Lock Kit stacked on Low Base

10-Drawer Flat File with optional Lock Kit on High Base

## Features

Extra-strength drawer rails insure proper drawer alignment for smooth operation without jamming.

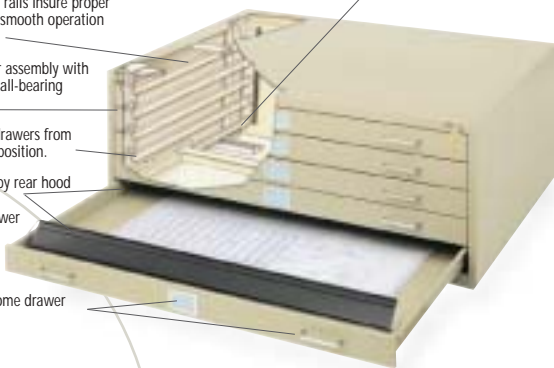

Heavy steel side-roller assembly with case-hardened steel ball-bearing rollers.

Courtesy stops keep drawers from rolling while in open position.

Sheets are protected by rear hood and hinged front depressor in each drawer which also prevent them from curling.

Functionally designed label holders and chrome drawer handles.

Positive closure keeps drawers tightly shut.

Museum/archival quality paint finish ensures that there is no out-gassing and that the atmosphere in the files has no acidity or alkalinity (ph) created by the finish.

## 5-Drawer and 10-Drawer Steel Flat Files

Our 5-drawer and 10-drawer models provide a reliable place to store all your valuable graphics. Files are modular so they can be used individually or in a space-saving stack. Expert engineering assures you maximum function and years of service. Warranted for 5 years.

Closed Base raises files 6" off the floor for protection and easier access. Front is recessed 2 $\frac{3}{4}$ " from file for toe space. Holds up to five files. Assembles easily. High Base raises files 20" off the floor. Base has enclosed back and sides with an open front for extra storage space. Sturdy all-steel construction. Holds up to two files. Easy assembly. Optional field installable Lock Kit includes lock and 2 keys.

### A. 5-Drawer Steel Flat File

Versatile file stores up to 500 sheets per unit active filing, 750 sheets of semi-active or 1,000 sheets of inactive material. Five large-capacity 2 $\frac{1}{8}$ " deep drawers in three cabinet sizes.

# High Density Filing

## A. MasterFile 2

MasterFile 2 is the high-density filing system that allows quick and easy document storage and retrieval. Warranted for 5 years.

Individual documents are attached to self-adhesive, pre-punched carrier strips which are hung vertically from a set of pins and posts inside the MasterFile 2. Carrier strips allow documents to hang straight, eliminating fingerprint smudges and dog-eared corners. Stored at a comfortable height for easy access, document retrieval is a simple process that requires no stooping or bending.

MasterFile 2 holds up to 1600 3-mil original documents. Insulated double wall steel construction provides excellent document protection.

**5 Year File Warranty**  
 Under correct use and normal operating conditions, Safco Flat Files and MasterFile 2 are warranted for a period of 5 years from date of shipment from Safco's warehouse to be free from defects in material and workmanship. Safco's obligation under this warranty shall be limited to the repair or exchange, at Safco's option, of any part which proves to be defective.

# Vertical File Systems

### Hanging Clamp Lifetime Warranty

Sturdy extruded aluminum clamps with clamp hangers and wing knobs are warranted for life! If they prove defective under normal use, Safco will replace or repair them free of charge.

## A. Hanging Clamp

Extruded aluminum clamps are the key to hanging file systems. Black wing knobs provide extra strong, balanced gripping tension and are guaranteed for life. Clamps hold up to 100 sheets or 20 lbs. Clear plastic label holders included. Clamp is made of natural aluminum with black wing knobs and end caps. Clamps sold in cartons of six.
